Elo Directory Solution

elo TOUCH SOLUTIONS

The Elo Directory Solution provides an interactive building directory and signage platform.

When visitors to your building or campus need to know how to find you – our interactive directory solution combines best-in-class hardware with a leading software platform to deploy interactive building directories quickly and easily.

Elo and Jibestream have teamed up to offer a solution that helps companies and building managers realize operational savings, streamline processes, and enhance visitor experiences. Optional Jibestream plug-ins expand NovoTouch software functionality to further differentiate the user experience.

Benefits:

- Building directories without complex set-up/ graphic design
- Centralized listing management for multiple lobby locations to streamline operations
- Enhanced interactive listings and advertising content
- Optional plug-ins for energy management, news, weather and a host of custom features supported by Jibestream

Features:

- Easy-to-use administrative interface and system navigation, optimized for Elo IDS displays and touchscreen technology
- Intuitive keyword, tenant name & category searches
- Elo touchscreen technologies deliver optimal interactivity for public use
- Web-based administration interface requires no additional software or hardware

Elo founders pioneered the touch screen over 40 years ago. Today, Elo Touch Solutions is a leading global supplier of touch-enabled technology, products and industry solutions.

Elo's Interactive Digital Signage (IDS) products are available in 32″ to 70″ and include the thinnest (3-3.5″) all-in-one commercial touch displays on the market.

JIBESTREAM
INTERACTIVE MEDIA

Jibestream is an innovative self-service and interactive company. Jibestream's intuitive software products and solutions help people navigate complex venues and access real-time information. Products include the NovoTouch family of lobby signage solutions and the NovoMap interactive wayfinding platform. Jibestream is located in Toronto, Canada.

How Does It Work?

NovoTouch is designed to work seamlessly on Elo Interactive Digital Signage displays. The software includes a web-based administrative interface and easy-to-use built-in user manual with convenient instructions and references for setup. Set up the IDS and Novotouch software using install instructions included with the product. Based on your need, you can be "up and running" quickly, or decide to develop a more advanced solution.

Minimum setup

- Set up location and time zone
- Add list of tenants (or import from Excel)
- Add a background image(s) for branding
- Add as much detail as desired for each tenant
- Add tenant images (logos, photographs, etc.)

"Up and running same day"

Recommended setup

- Include a map/locator image in tenant detail
- Add a Flash animated attract loop and background
- Add RSS feeds
- Manage installation remotely

"Enrich content as you see fit"

Additional options

- Building energy data integration
- Multiple RSS feeds
- Weather, news, etc.

"Expanded possibilities"

Easy Setup

NovoTouch is easy to install:

1. Install the Elo IDS display and computer module at your facility using a VESA wall mount

2. Start-up Windows and install the NovoTouch package

3. Enable your license by a phone or internet connection

4. Browse locally ("localhost") or over the internet and log-in to the management interface to start uploading content

The quick install guide explains the installation process in detail.
