

# Elo Digital Whiteboard Solution

The Elo Digital Whiteboard Solution provides everything you need to equip your corporate meeting room with advanced digital whiteboard and collaboration capabilities.

Find yourself taking pictures of the whiteboard after a meeting? Imagine combining the simplicity of a whiteboard with the touch interactive experience of a computer – without the need for a projector or a laptop.

Elo Touch Solutions and Hitachi have teamed up to offer the Elo Digital Whiteboard Solution for corporations and higher education. The Elo Digital Whiteboard Solution, built on an Intel® Core i5 computer running Windows®, is a feature-rich, all-in-one digital whiteboard that allows touchscreen whiteboard features, Microsoft® Office® integration and the ability to connect multiple whiteboards in remote locations.

## Benefits:

- Share ideas and brainstorm easily on a digital whiteboard
- Create, deliver and manage digital content with your finger or a stylus
- Present Microsoft Office documents and annotate as a group
- Create, Save, Print and Share
- Work locally, or link board together for collaborative remote meetings

## Features:

- Elo 70-inch multi-touch display with Intel Core i5 processor and Windows 7 running Hitachi Starboard v9 software
- Host/join remote meetings
- Import Microsoft Office documents in Starboard
- Run other Windows or cloud-based applications and integrate the device into your corporate IT architecture

Elo founders pioneered the touch screen over 40 years ago. Today, Elo Touch Solutions is a leading global supplier of touch-enabled technology, products and industry solutions.

Elo's Interactive Digital Signage (IDS) products are available in 32" to 70" and include the thinnest (3-3.5") all-in-one commercial touch displays on the market.

## HITACHI

### StarBoard

Hitachi Starboards represent the pinnacle of innovation within the modern-day meeting room. Thanks to interactive whiteboard technology, meetings can now be more fun, fulfilling, engaging and more productive.

## How Does It Work?

Hitachi Starboard software works seamlessly on the Elo 70-inch IDS hardware. Starboard software is pre-installed on the included computer module. Hitachi provides video tutorials and on-line information to help you get the most out of this solution, as well as extensive on-line and phone support.

### Minimum setup

- Run an individual unit
- Hitachi Starboard and Windows 7 (included)

“Up and running same day”

### Recommended setup

- Connect the internet to the internal computer and bring the web into your meetings

“Enrich content as you see fit”

### Additional options

- Link multiple Starboard units together and pass control of the screen from location to location
- Hitachi Starboard and any other collaboration tool you choose

“Expanded possibilities”
